

SWC-100CE HF ANTENNA

HF BROADBAND CENTRE-FED DIPOLE
"Digital Mode" 2.0 - 30MHz

The SWC-100CE is a *high power* commercial grade single wire broadband dipole base antenna specifically designed for the Digital Voice and Data protocols employed by modern HF Transceivers

The original SWC's that were first made over a decade ago are still going strong and have continually been improved and refined to ensure higher quality and durability than ever before.

The SWC-100CE is 60m long, however where space is limited, the SWC-100CE can be set up as an inverted "V" from either of the two sets of mounting points. At a mast height of 10m, this setup will have a footprint of only 40m.

As with the majority of Bushcomm antennas the SWC-100CE can be adapted to suit many different installation sites. It can be suspended, the higher the better, between any two points - although avoiding running it over iron-roofed building is advisable for optimal performance.

Being a *true broadband* antenna, the SWC-100CE covers the frequency range of 2.0-30MHz **without using a tuner.**

Product Brief

SPECIAL FEATURES

- * 2.0 – 30MHz
- * NO TUNER REQUIRED
- * S/S Wire & Fittings
- * UV Resistant balun/load boxes
- * Easy Installation (instructions provided)
- * 125W Digital Voice & Data Compatible

ALSO AVAILABLE:

SWC-100S - 34m long
SWC-100 - 48m long
SWC-100E - 60m long

**125W PEP Analogue Voice
Models Also Available**

SPECIFICATIONS

ELECTRICAL

- *Frequency Range: 2.0-30 MHz
- *Input Impedance: 50 OHM
- *Power Input: 125W Digital & Data modes, 250W PEP
- *Input Connector: UHF-type socket

MECHANICAL

- Shipping Weight: Approx 2.5KG
- Antenna Length: 60m

*Left: Bushcomm Balun showing coaxial strain relief feature.*****

**** Coaxial cable not included, however it can be purchased separately.

RECOMMENDED INSTALLATION CONFIGURATIONS

ABOVE: HORIZONTAL CONFIGURATION

ABOVE: INVERTED "V" CONFIGURATION

21 RIVER ROAD, BAYSWATER WA 6053
